

# CALL FOR PAPERS

**ICDERM 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDERM 2021 : International Conference on Distributed Energy Resource Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Distributed Energy Resource Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Distributed Energy Management  
Distributed Energy Resource  
Management  
Distributed Control and Management  
of Renewable Electric Energy  
Resources  
Demand Response and Distributed  
Generation Management  
Hierarchical Control of Microgrids

Energy Storage Systems for Energy  
Management  
Low Carbon Energy and Energy  
Efficiency  
Distributed Energy Management in  
Smart Thermal Grids  
Distributed Energy Management for  
Vehicle-to-Grid Networks  
Energy Management Strategies for  
Distributed Energy Resources
