

# CALL FOR PAPERS

**ICDME 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDME 2021 : International Conference on Database Management and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Database Management and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Database engineering  
Database programming, analysis, and administration  
Database documentation  
Computer-aided database engineering  
Database applications  
Data models and data modeling  
Physical data model  
Logical data model  
Distributed data management

Databases, declarative systems and machine learning  
Scientific data management  
Database systems  
Data management and systems  
Data management and cloud computing platforms  
Embedded and mobile database systems  
Self-managing database systems  
Data quality  
Probabilistic data management
