

CALL FOR PAPERS

ICDMNS 2021
Mar 29-30, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMNS 2021 : International Conference on Digital Mapping and Navigation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Mapping and Navigation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Digital mapping (digital cartography)
- Creating digital-format geologic maps from spatial data
- Information management for digital mapping
- Web-accessible databases and web services
- Geologic map databases
- Migration of map data to new formats
- Earth science information
- LIDAR and other advanced terrain models
- Map/database preparation

- 3-D databases and visualization techniques
- Global Positioning System
- GPS satellite network
- Automotive navigation systems.
- Digital mapping and data collection
- Applications of digital mapping
- Computer applications of digital mapping
- Scientific applications of digital mapping
- GPS navigation systems and daily uses of digital mapping
