

# CALL FOR PAPERS

**ICERICN 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICERICN 2021 : International Conference on Evolutionary Robotics and Intelligent Computer Network is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Robotics and Intelligent Computer Network. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary robotics  
Computational intelligence  
Intelligent computer network and systems  
Evolutionary computation  
Autonomous robots  
Genetic algorithms

Artificial neural networks  
Robot learning  
Developmental robotics  
Artificial life  
Intelligent machines  
Neurocybernetics
