

# CALL FOR PAPERS

**ICFNR 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFNR 2021 : International Conference on Future of Neurorehabilitation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future of Neurorehabilitation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Child Developmental disorders  
Pediatric TBI  
Case Management  
Therapeutic Recreation  
Therapies: Occupational, Physical  
and Walking Therapy  
Pediatric Assistive Technology  
Future of Pediatric  
Neurorehabilitation  
Neurological balance exercises  
Physiotherapy Exercises for Spinal  
cord Injury  
Neurological Physiotherapy  
Vestibular Rehabilitation  
exercises  
Neural Repair  
Neurorehabilitation basic research

Clinical research  
Neurorehabilitation research  
methodology  
Pharmacology in  
neurorehabilitation  
Explanatory models in  
neurorehabilitation  
Vocational rehabilitation  
Transitional problems in  
neurorehabilitation  
Neuro rehabilitation principles and  
practice  
Biomechanics in rehabilitation  
Developmental neurorehabilitation  
Clinical and technical perspectives  
on neurorehabilitation  
Psychological and environmental  
rehabilitation  
Ethical aspects during  
neurorehabilitation  
Neuropsychologic rehabilitation
