

# CALL FOR PAPERS

**ICM 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICM 2021 : International Conference on Microcomputers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microcomputers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

#### Microcomputers

Microcomputers, microcontrollers,  
and microprocessors

Advances in microcomputers and  
microcomputer architectures

Major components of microcomputers

Microcomputer architecture and  
organization

Single-chip microcomputers

Central processing unit

Program memory

Data memory

Output ports

Input ports

Clock generator
