

# CALL FOR PAPERS

**ICMDE 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDE 2021 : International Conference on Model Driven Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Model Driven Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Model driven engineering languages and systems  
Model driven development  
Methodologies, processes and platforms  
Systems engineering  
Model transformations and generative approaches  
Frameworks for model-driven development  
Hybrid multi-modeling approaches  
Modeling for the cloud  
Software process modeling, enactment and execution  
Workflow management systems  
Business process modeling  
Agile model-driven development

Applications and software development  
Model-driven project management  
Model-based testing and validation  
Model execution and simulation  
Model quality  
Executable UML  
Meta-programming  
Component-based software engineering  
Software factories and software product lines  
Generative programming  
Modeling languages, tools and architectures
