

CALL FOR PAPERS

ICSSM 2021
Mar 29-30, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSM 2021 : International Conference on Software Systems in Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Systems in Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical, environmental, and process engineering
Environmental engineering and sustainable development
Process design and optimization
Product innovation, development and economics
Process intensification
Nanotechnology
Clean technologies
Sustainable cities
Health and the environment
Health related organisms
Waste minimization
Optimization of collection systems
Access to medications in developing countries

Affective computing
Bioinformatics
Clinical problems and applications
Cognitive informatics
Confidentiality and data security
Critical care management
Decision support systems
Dental informatics
Design and development methodologies for healthcare IT
Development of assistive technology
e-health
e-health for public health
Electronic health records and standards
