

# CALL FOR PAPERS

**ICABB 2021**  
**Mar 29-30, 2021**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABB 2021 : International Conference on Algae Biotechnology and Biofuels is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Algae Biotechnology and Biofuels. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algae biofuels  
Culturing algae  
Algal harvesting and extraction systems  
Algal biology  
Harvesting and oil extraction system  
Cyanobacterial biofuels production  
Commercialization of algae biofuels

Wastewater based algae biofuels production  
Algal biosequestration  
Advances in algal biofuel production  
Biofuels from microalgae and microbes  
New conversion technologies for algal biofuels  
Catalytic, thermal, and enzymatic systems  
Biodiversity and bioprospecting of algae for biofuels and high value products
