

# CALL FOR PAPERS

**ICABE 2021**  
**Mar 29-30, 2021**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABE 2021 : International Conference on Advances in Biofilm Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biofilm Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofilm engineering  
Translational biofilm research  
Biofilm development  
Microbial biofilms  
Bacterial biofilms  
Biofilm life cycle

Natural environments  
Manufactured materials and systems  
Health and the human body  
Waste and wastewater treatment  
Remediation of contaminated soil  
and groundwater  
Engineering applications of  
biofilms
