

CALL FOR PAPERS

ICCHCRCUN 2021
Mar 29-30, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCHCRCUN 2021 : International Conference on Community Health Centers, Remaining Challenges and Unmet Needs is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Community Health Centers, Remaining Challenges and Unmet Needs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Community health centers
- Social determinants of health
- Trends in health care and community health centers
- Health reform and health centers
- Policy implications
- Health information technology and quality improvement
- Health center funding structure and sources
- Health center patients
- Management of chronic disease at community health centers

- Shortages of medical personnel at community health centers
- Access to specialty care and medical services in community health centers
- Access to care
- Health information technology in community health centers
- Racial and ethnic minority groups
- Women in community health centers
- Children and adolescents in community health centers
- Cost-effective care and economic impact
- Remaining challenges and unmet needs
