

CALL FOR PAPERS

ICEFGWCC 2021
Mar 29-30, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEFGWCC 2021 : International Conference on Ecological Footprint, Global Warming and Climate Change is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Footprint, Global Warming and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Application and evaluation of ecological footprint
Ecological footprint of rural solid waste disposal
Ecological footprints and sustainable solutions
Sources of ecological footprints
Solutions and sustainable actions
Methods and strategies to reduce ecological footprint
Protocols, policies and laws for ecological footprinting
Measurement and reduction of ecological footprint of engineering applications
Ecological footprint of agricultural products
Ecological footprint of transportation
Ecological footprint of textile and fashion
Ecological footprint of energy generation
Ecological footprint calculation

Ecological footprints of wood and other materials
Ecosystem valuation
Energy and natural resources
Environmental impact assessment
Environmental performance
Greenhouse gas emissions
Happy planet index
Life cycle assessment
Preservation and sustainable utilization of our natural heritage
Renewable energy
Residential waste and recycling
Sustainable development and ecological footprint
Technical innovations for regional economic development
