

CALL FOR PAPERS

ICEWMH 2021
Mar 29-30, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEWMH 2021 : International Conference on Electronic Waste Management and Handling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Waste Management and Handling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Electronic waste management
- Human toxicity of hazardous substances in e-waste
- Environmental impacts of e-waste from disposal processes
- E-waste recycling technologies
- E-waste management and disposal strategy
- E-waste management policies, procedures and strategies
- Material flow analysis of electronic wastes
- Effects on the environment and human health
- Sustainable management of electronics
- Sustainable e-waste management
- Electronic waste inventory management
- Electronic waste production-process modification
- Electronic waste volume reduction
- Electronic waste recovery and reuse
- Sustainable electronic product design
- Life cycle assessment
- Material flow analysis
- Multi criteria analysis
- Extended producer responsibility
