**Mar 29-30, 2021**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFACCS 2021 : International Conference on Forensic Analytical Chemistry, Chemometrics and Statistics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forensic Analytical Chemistry, Chemometrics and Statistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forensic analysis  
Drug analysis  
Molecular and atomic  
spectrochemical technique  
Electrochemical techniques  
Sensors

Surface characterization  
techniques  
Mass spectrometry  
Nuclear magnetic resonance  
Chemometrics and statistics  
Separation sciences
