

CALL FOR PAPERS

ICHLRWMA 2021
Mar 29-30, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHLRWMA 2021 : International Conference on High-Level Radioactive Waste Management and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High-Level Radioactive Waste Management and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High-Level Radioactive Waste Management
Management and Treatment of High-Level Radioactive Wastes
The Disposal of High-Level Radioactive Waste
High-Level Radioactive Waste Disposal Techniques and Technologies

Near-Surface and Deep Geologic Disposal Techniques
New Solidification Materials in High-Level Radioactive Waste Management
Transportation of High-Level Radioactive Waste
Long-Term Management of Used Nuclear Fuel
