**Mar 29-30, 2021**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHQP 2021 : International Conference on Harmonics and Power Quality is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Harmonics and Power Quality. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Harmonics and Quality of Power  
Analysis and Modelling (Networks,  
Devices, Loads etc.)  
Measuring and Monitoring  
Techniques  
Sources of Disturbances  
(Converters, Traction Systems,  
Network Harmonics etc.)  
Power Conditioning  
Standards and Recommended  
Practices  
Diagnostic Systems and Expert  
System Applications  
Electromagnetic Compatibility  
(EMC)

Power Quality in Distribution  
System  
Impact of Distributed Generation on  
Power Quality  
Quality Aspects of Industrial,  
Commercial and Residential  
Consumers  
Grounding Systems  
Power Definitions and Measurements  
under Nonsinusoidal and Unbalanced  
Conditions  
Power Quality, Economics and  
Liability  
Power Quality in a Deregulated  
Electricity Market  
Smart Grids and Power Quality
