

CALL FOR PAPERS

ICOEA 2021
Mar 29-30, 2021
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOEA 2021 : International Conference on Ocean Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ocean Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ocean engineering
Ocean structures and materials
Offshore technology
Structures, safety and reliability
Materials technology
Pipeline and riser technology
Ocean space utilization
Polar and arctic science and technology
Ocean renewable energy
Offshore geotechnics
Fixed and floating offshore platforms
Pipelines and risers
Cables and mooring

Buoy technology
Foundation engineering
Ocean mining
Marine and offshore renewable energy
Aquaculture engineering
Subsea engineering
Naval architecture including Ship and special marine vehicle design
Intact and damaged stability
Technology for energy efficiency and green shipping
Ship production technology
Decommissioning and recycling
