

CALL FOR PAPERS

ICABSE 2021
Mar 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABSE 2021 : International Conference on Advances in Biofilm Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biofilm Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biofilm engineering
Translational biofilm research
Biofilm development
Microbial biofilms
Bacterial biofilms
Biofilm life cycle

Natural environments
Manufactured materials and systems
Health and the human body
Waste and wastewater treatment
Remediation of contaminated soil
and groundwater
Engineering applications of
biofilms
