

# CALL FOR PAPERS

**ICAFM 2021**  
**Mar 25-26, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFM 2021 : International Conference on Advances in Fluid Mechanics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Fluid Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in Fluid Mechanics  
Computational methods  
Environmental measurements  
Hydrodynamics  
Fluid structure interaction  
Multiphase flow  
Applications in biology  
Electronic components  
Environmental fluid mechanics  
Heat and mass transfer  
Industrial applications

Flow instability and Turbulence  
Aerodynamics and Gas Dynamics  
Hydrodynamics  
Industrial and Environmental Fluid  
Mechanics  
Biofluid Mechanics  
Geophysical Fluid Mechanics  
Plasma and Magneto-Hydrodynamics  
Multiphase Flows, Non-Newtonian  
Flows and Flows in Porous Media  
Flow of Reacting Fluid  
Microscale Flows and Others
