

CALL FOR PAPERS

ICASET 2021
Mar 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASET 2021 : International Conference on Aerospace Science, Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Science, Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space Missions, Systems and Architectures
Science and Aerospace Frontiers
Deep Space, Earth and Discovery Missions
Future Space and Earth Science Missions
System and Technologies for Landing on Planets, the Moon, Earth and Small Bodies
Access to Space and Emerging Mission Capabilities
Robotic Mobility and Sample Acquisition Systems
Future Missions and Enabling Technologies for In Situ Exploration, Sample Returns
In Situ Instruments for Landed Surface Exploration, Orbiters and Flybys
Q/V Band and Beyond Satellite Missions
Mission Design for Spacecraft Formations
Radiation Issues and Modeling for Deep Space Missions

Space Debris and Dust: The Environment, Risks, and Mitigation
Concepts and Practices
Asteroid Hazard Detection, Mitigation, and Retrieval Concepts
Antennas, RF/Microwave Systems, and Propagation
Phased Array Antenna Systems and Beamforming Technologies
Ground and Space Antenna Technologies and Systems
RF/Microwave Systems
Radio Astronomy and Radio Science
Miniaturized RF/Microwave Technologies Enabling Small Satellite and UAV Systems
Communication, Navigation Systems and Technologies
Evolving Space Communication Architectures
Communication Protocols and Services for Space Networks
Navigation and Communication Systems for Exploration
