

CALL FOR PAPERS

ICATA 2021
Mar 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATA 2021 : International Conference on Aquaculture Technology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aquaculture Technology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aquaculture technology
Aquaculture production technology
Fisheries and aquaculture
Fish farms and technology
Fish capture and fishing gears
Fish pathology
Fisheries statistics
Aquaculture industry
Freshwater fisheries
Pelagic fisheries

Shellfish fisheries
Marketing and pricing of fish
Regulating fisheries
Ocean farm technologies
Food security and small scale aquaculture
Fish and human health
Over fishing and ecosystem degradation
Climate change and aquatic biodiversity
Technological advances in aquaculture
Challenges in aquatic health management
