

CALL FOR PAPERS

ICATICT 2021
Mar 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATICT 2021 : International Conference on Aerospace Testing and Industrial Control Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Testing and Industrial Control Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace Testing and Industrial Control

Aerospace Test Systems

Aerospace Test Controllers

Structural Testing for Aerospace

Flight controls of an aircraft system

Landing gears of an aircraft system

Hydraulics of an aircraft system

Iron bird testing

Aircraft/airframe structural integrity

Hydraulic system tests

Landing gear, engine casing and fin actuation loading tests

Helicopter airframe, rotor head and blade tests

Fuselage and cockpit pressurization

Load calibration tests

Spacecraft structural integrity

Non-destructive testing

Climate testing

Mechanical testing

Engineering diagnostics

Laboratory control

Metrology and standardization

Nanometrology and nanodiagnostics

Production control

Production facilities with instruments and testing equipment

Metrological support and technical diagnostics tools

Test Controllers and Software
