

# CALL FOR PAPERS

**ICBWMP 2021**  
**Mar 25-26, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBWMP 2021 : International Conference on Biomedical Waste Management and Recycling Process is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Waste Management and Recycling Process. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical waste management  
Biomedical waste management systems  
Human toxicity of hazardous substances in biomedical waste  
Environmental impacts of biomedical waste from disposal processes  
Biomedical waste management in developing countries  
Biomedical waste recycling technologies  
Biomedical waste management and disposal strategy  
Biomedical waste management policies, procedures and strategies  
Effects on the environment and human health  
Sustainable management of biomedical waste  
Sustainable biomedical waste management

Biomedical waste inventory management  
Biomedical waste recovery and reuse  
Human anatomical waste  
Animal waste  
Microbiology and biotechnology waste  
Waste sharps  
Soiled waste  
Solid waste  
Liquid waste  
Chemical waste
