

# CALL FOR PAPERS

**ICCM 2021**  
**Mar 25-26, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCM 2021 : International Conference on Construction Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials  
Biomaterials  
Electronic, optical and magnetic materials  
Computational materials science and materials theory  
Ceramics and glasses  
Composite materials  
Polymers  
Metal alloys  
Iron and Steel  
Paper and wood

Textiles  
Chemical  
Electronic, Optical, and Magnetic Materials  
Construction materials  
Green manufacturing and sustainability  
Recycled materials  
New construction materials  
Emerging technologies in materials science  
Materials environment interactions
