

# CALL FOR PAPERS

**ICCPES 2021**  
**Mar 25-26, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPES 2021 : International Conference on Cardiovascular Physiology in Exercise and Sport is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cardiovascular Physiology in Exercise and Sport. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cardiovascular physiology in  
exercise and sport  
Cardiac activation  
Cardiac output  
Blood pressure  
Vasomotor regulation in exercise  
The vascular system  
Local regulation of peripheral  
vascular function

Measuring peripheral vascular  
function  
Pulmonary vascular function  
Circulatory limits to exercise  
Adverse circulatory effects of  
exercise  
Cardiovascular adaptations to  
training  
Effects of high altitude
