

CALL FOR PAPERS

ICDRSGLBSG 2021
Mar 25-26, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDRSGLBSG 2021 : International Conference on Demand Response in Smart Grids and Load Balancing in Smart Grids is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Demand Response in Smart Grids and Load Balancing in Smart Grids. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active consumers
Business models
Consumer profiling
Consumption baseline
Demand flexibility
Demand response
Demand response programs
Demand side management
Distributed energy resources
Distributed energy storage
Distributed generation
Electric and hybrid vehicles
Energy efficiency

Energy efficient buildings
Energy management
Energy markets
Energy policy
Energy resource optimization
Energy tariffs
Explicit and implicit demand response
Incentive-based and price-based demand response
Intelligent resource management
Load balancing in smart grids
Load flexibility
Load forecasting
Regulatory aspects
