

# CALL FOR PAPERS

**ICTSE 2021**  
**Apr 22-23, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSE 2021 : International Conference on Transportation and Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Transportation and Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transportation engineering	Trip generation
Highway engineering	Trip distribution
Railroad engineering	Mode choice
Port and harbor engineering	Route assignment
Airport engineering	Traffic engineering
Scientific principles of planning, functional design, operation and management	Intelligent transportation systems
Urban planning	Vehicle infrastructure integration
Urban transportation planning model
