

CALL FOR PAPERS

ICTCTR 2021
Apr 22-23, 2021
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCTR 2021 : International Conference on Tissue Culture Technologies and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Tissue Culture Technologies and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Tissue culture technologies
Applications of tissue culture
Tissue culture and engineering
Culture of non-mammalian cells
Plant tissue culture methods
Tissue culture strategies for genetic improvement
Advanced tissue culture process controls and modeling

Tissue culture-based manufacturing
Integrated continuous process development for tissue culture
Non-protein products of tissue culture
Current concerns and emerging trends in tissue culture
bioprocessing
Tissue culture in forestry and agriculture
Plant and agriculture biotechnology
Mammalian tissue cell culture
