

CALL FOR PAPERS

ICSCPI 2021
Apr 05-06, 2021
Cancun, Mexico

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCPI 2021 : International Conference on Sustainable Crop Production Intensification is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Crop Production Intensification. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The major challenges and developments in sustainable agriculture research
Intensification crop production for sustainable agriculture
Develop environmentally and profitable food production systems
Ecological sustainability of farming systems

Innovations for improving efficiency and rationale use of natural resources
Technological options and new areas of research for sustainable crop production intensification
Conservation agriculture practices for ecosystem 'functions' and 'services'
