

CALL FOR PAPERS

ICNGEM 2021
Apr 15-16, 2021
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNGEM 2021 : International Conference on Natural Gas Engineering and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Natural Gas Engineering and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Natural gas science and engineering
Natural gas industry
Natural gas exploration
Natural gas production
Natural gas processing
Natural gas transmission
Origin and accumulation of natural gas
Natural gas geochemistry
Gas-reservoir engineering
Well logging, testing and evaluation
Mathematical modelling

Enhanced gas recovery
Thermodynamics and phase behavior
Gas-reservoir modelling and simulation
Natural gas production engineering
Primary and enhanced production from unconventional gas resources
Coalbed methane, tight gas, shale gas, and hydrate production
Formation evaluation, exploration methods, multiphase flow and flow assurance issues
Novel processing techniques
Raw gas transmission methods
Gas processing/LNG technologies
Sales gas transmission and storage
