

CALL FOR PAPERS

ICTPM 2021
Apr 15-16, 2021
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTPM 2021 : International Conference on Thermomechanical Processing Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Thermomechanical Processing Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Thermomechanical processing
Application of thermomechanical processing
Rebar steel
Metallurgical process
Mechanical or plastic deformation process
Compression
Forging
Rolling
Metal behaviour and predictive simulation
Alloy design
Aluminum alloys

Structural materials
Steels
Metallic materials
Recent developments
Heat-treatment
Water quenching
Heating and cooling
Materials and experimental procedure
Thermomechanical processing of metallic materials
Thermomechanical processing of steels
