

# CALL FOR PAPERS

**ICWETER 2021**  
**Apr 15-16, 2021**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWETER 2021 : International Conference on Waste-to-Energy Technology and Energy Recovery is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste-to-Energy Technology and Energy Recovery. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste-to-energy technologies  
Incineration methods  
Global developments  
Carbon dioxide emissions  
Determination of the biomass fraction  
Waste-to-energy plants  
Energy recovery  
Waste-to-energy applications  
Environment improvement  
Thermal technologies  
Gasification

Thermal depolymerization  
Pyrolysis  
Plasma arc gasification or plasma gasification process  
Non-thermal technologies  
Anaerobic digestion  
Fermentation production  
Mechanical biological treatment  
Municipal solid waste, sustainability and technology  
Landfill gas process flows and methane emissions  
Government policies and regulations  
Waste-to-energy technologies and project development
