

# CALL FOR PAPERS

**ICEEH 2021**  
**Apr 26-27, 2021**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEH 2021 : International Conference on Earthquakes and Earthquake Hazards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Earthquakes and Earthquake Hazards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Earthquake geology  
Earthquake physics  
Earthquake, landslides and tsunami  
Geologic effects and records of earthquakes  
Earthquake engineering  
Principles of performance-based earthquake engineering  
Seismic hazard and seismic risk analysis  
Passive energy systems  
Seismic isolation

Seismic response analysis and behavior  
Seismic fragility analysis  
Dynamic stress concentration  
Seismic reliability analysis  
Seismic damage analyses  
Seismic effect  
Mechanical behavior  
Seismic performance  
Seismic risk assessment
