

CALL FOR PAPERS

ICACO 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACO 2021 : International Conference on Avalanche Control Operations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Avalanche Control Operations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|----------------------------------|--|
| Avalanche control | Response and recovery |
| Avalanche defense | Professional preparedness |
| Avalanche safety | Amateur preparedness |
| Avalanche control measures | New avalanche control technology |
| Avalanche control activities | Alternate methods of avalanche control |
| Avalanche control operations | Avalanche mapping |
| Avalanche prevention and control | Avalanche hazard assessment and mitigation |
| Risk and hazard assessment | Helicopter avalanche control |
| Prevention and mitigation | Snow and avalanche control |
| Observation and forecasting | Some recent advances |
| Active interventions | Weather climatic control on snow |
| Permanent interventions | avalanche occurrence |
| Social interventions | Avalanche risk assessment |
