

# CALL FOR PAPERS

**ICAMSCI 2021**  
**Apr 29-30, 2021**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMSCI 2021 : International Conference on Advanced Manufacturing and Supply-Chain Innovations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Manufacturing and Supply-Chain Innovations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Development of new analytical and simulation models for supply-chain network design  
Supply-chain optimization for sustainability and sustainable development  
Testing of new analytical and simulation models for supply-chain network design

Design, management, and coordination for advanced manufacturing systems  
Advanced manufacturing and logistics management  
Integrating models for real-time optimization of advanced manufacturing processes and their associated supply chains
