

# CALL FOR PAPERS

**ICBDBA 2021**  
**Apr 29-30, 2021**  
**Jerusalem, Israel**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDBA 2021 : International Conference on Bacterial Display, Bioengineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Display, Bioengineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bacterial display  
Bacterial surface display  
Bioengineering  
In vitro protein evolution  
History  
Principle  
Scaffold  
Applications  
Affinity-based screening

Antibody epitope mapping  
Identification of peptide  
substrates  
Identification of cell-binding  
peptides  
Vaccine delivery  
Comparison with phage display  
Magnetic-activated cell sorting  
Fluorescence-activated cell  
sorting  
Identification of enzyme  
substrates  
Flow cytometry or iterative  
selection procedures
