

CALL FOR PAPERS

ICCCA 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCA 2021 : International Conference on Cementitious Composites and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cementitious Composites and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cementitious composites
Properties and types
Field applications
Comparison to other composite materials
Fiber-reinforced cementitious composites
High-strength cementitious composites
Polymers in concrete
Shrinkage-compensating concrete

Self-compacting concrete
Engineered cementitious composite
Engineered cementitious composites for structural applications
Tube-reinforced concrete
High-volume fly ash concrete
Structural lightweight concrete
Heavyweight concrete
