

CALL FOR PAPERS

ICCEAM 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEAM 2021 : International Conference on Civil Engineering and Applied Mechanics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Engineering and Applied Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil Engineering	Aerodynamics
Coastal and Harbor Engineering	Aeroelasticity
Computational Methods in Civil Engineering	Boundary Layers
Construction Engineering and Management	Computational Mechanics
Engineering Materials	Constitutive Modeling of Materials
Geotechnical Engineering	Dynamics
Hydraulic Engineering	Elasticity
Structural Engineering	Flow and Fracture
Earthquake Engineering	Heat Transfer
Engineering Seismology	Hydraulics
Transportation Engineering	Impact
Geomatics Engineering	Internal Flow
Applied Mechanics
