

CALL FOR PAPERS

ICCSC 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSC 2021 : International Conference on Cognitive Systems and Complexity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Systems and Complexity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cognitive systems engineering
Cognitive engineering
Cognitive systems, advantages and disadvantages
Advances in cognitive systems engineering
Cognitive systems, modeling, design and management
Cognitive systems, simulation and optimization
Applications of cognitive systems engineering
Analysis of human-machine systems and sociotechnical systems
Usability testing

Process mapping
Discrete-event simulation
Dynamic systems simulation
Interface design, prototyping and evaluation
Design of human interfaces
Communication systems
Training systems
Management systems
