

CALL FOR PAPERS

ICEKAM 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEKAM 2021 : International Conference on Experiential Knowledge and Advanced Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experiential Knowledge and Advanced Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artistic ways of understanding
alive, active, adaptive materials
Frameworks, approaches, tools and
methods to support designing with
alive, active and adaptive
materials
New research spaces and design
possibilities with alive, active
and adaptive materials
Explorations of future applications
of alive, active and adaptive
materials

Emerging materials and the
implications for design research
and practice
Design research on and reflective
accounts of experience and practice
with alive, active and adaptive
materials
Implications of alive, active and
adaptive materials on education in
design or other creative
disciplines
