

CALL FOR PAPERS

ICEPTEPTP 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPTEPTP 2021 : International Conference on Electric Power Transformer Engineering and Power Transformer Protection is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Power Transformer Engineering and Power Transformer Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric power transformer
engineering
Theory and principles
Equipment types
Power transformers
Distribution transformers
Phase-shifting transformers
Rectifier transformers
Dry-type transformers
Instrument transformers
Step-voltage regulators

Constant-voltage transformers
Ralph ferraro
Reactors
Loading and thermal performance
Transformer connections
Transformer testing
Load-tap-change control and
transformer paralleling
Power transformer protection
On-line monitoring of
liquid-immersed transformers
Transformer installation and
maintenance
