

CALL FOR PAPERS

ICESTSDG 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESTSDG 2021 : International Conference on Energy Saving Technologies for Sustainable Development and Growth is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Saving Technologies for Sustainable Development and Growth. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy conservation technologies
Recent advances in energy
conservation technologies
Renewable energy and energy
conservation technologies
Building energy conservation
technologies
Energy conservation in electrical
systems
Energy conservation in renewable
energy systems
Energy conservation in buildings
and possible benefits

Enhancement of energy conservation
technologies
Energy management and auditing
Conservation technologies for
domestic sector
Conservation technologies for
industrial and commercial sector
Conservation technologies for
commercial buildings
Clean development mechanism
Energy savings
