

CALL FOR PAPERS

ICGISM 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGISM 2021 : International Conference on Green Infrastructures for Stormwater Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Infrastructures for Stormwater Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable storm water management
Stormwater runoff management
Water quality enhancement

Rain gardens
Bioretention swale and trees
Green roofs
