

CALL FOR PAPERS

ICHEMSP 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHEMSP 2021 : International Conference on Highway Engineering Methods, Standards and Policies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Highway Engineering Methods, Standards and Policies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Highway engineering	Alignment, super-elevation, and grades
Planning, design, construction, operation, and maintenance of roads, bridges, and tunnels	Cross section
Planning and development	Lane width
Financing	Horizontal and vertical clearance
Environmental impact assessment	Materials
Highway safety	Flexible pavement design
Highway design	Rigid pavement design
Geometric design	Flexible pavement overlay design
Design speed	Rigid pavement overlay design
Design traffic volume	Drainage system design
Number of lanes	Highway construction, maintenance, and management
Level of service (LOS)	Subbase course construction
Sight distance	Base course construction
