

CALL FOR PAPERS

ICHTHPG 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTHPG 2021 : International Conference on Hydropower Technologies and Hydroelectric Power Generation is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hydropower Technologies and Hydroelectric Power Generation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in hydroelectric power generation
Hydropower technology and types of hydroelectric power plants
Hydrology applied to hydropower planning
Design and operation hydroelectric power plants

Environmental and social impacts of hydropower
Impact of climate change on natural and man-made water systems
Interaction between hydropower and other renewable energy technologies
