

CALL FOR PAPERS

ICLAMHPM 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLAMHPM 2021 : International Conference on Laser Additive Manufacturing for High-Performance Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Laser Additive Manufacturing for High-Performance Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Laser additive manufacturing of high-performance materials
Development of high-performance new metallic materials components
Laser additive manufacturing for new metallic materials

Development of complex shapes, unique microstructures and high performance
Sustainable development of laser additive manufacturing technology
Classification, processing philosophy, and metallurgical mechanisms of laser additive manufacturing
