

CALL FOR PAPERS

ICMET 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMET 2021 : International Conference on Manufacturing Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in Rapid Manufacturing
Technologies for Metallic Parts
Solid Freeform Fabrication for
Biomedical and Tissue Engineering
Miniaturization of Molding and
Casting Processes
Hybrid Macro/Meso/Micro
Manufacturing Processes
Thermally-Enhanced Manufacturing
Micro-Manufacturing and Fabrication
of Sensors
Communication Systems and
Distributed Control in
Manufacturing Enterprises
Collaborative and Digital
Manufacturing for Advancing Product
Quality
Diagnostics, Performance Prediction
and Decision Making for Intelligent
Maintenance of Manufacturing
Systems

Advances in Quality Control in
Multistage Manufacturing Systems
"Bottom-up" Nanomanufacturing
Biomedical Manufacturing
Nanomanufacturing Processes and
Systems
Development and Applications of
Micro Manufacturing Equipment
Design and Operations of
Manufacturing Systems for
Responsiveness
Advances in Metal Forming
Fracture Reliability of Fabricated
Materials
