

CALL FOR PAPERS

ICMRRST 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMRRST 2021 : International Conference on Marine Radar Remote Sensing Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Radar Remote Sensing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine radar remote sensing
Climate change variables
Wind speed
Hurricane monitoring
Sea currents and waves

Sea salinity
Sea pollution
Oil spill monitoring
Ship monitoring
Sea critical infrastructure
monitoring
