

CALL FOR PAPERS

ICMSA 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSA 2021 : International Conference on Mathematical Sciences and Algebra is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical Sciences and Algebra. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences
Algebra, geometry and topology
Analysis and PDEs
Partial and ordinary differential equations
Algebraic structures
Applied and computational mathematics
Extremal combinatorics
Mathematical biology and ecology
Mathematical physics

Dynamical systems
Probability and statistics
Basic differential calculus
Matrices and linear transformations
Matrix theory
Calculus in three dimensions
Differential geometry of curves and surfaces
Partial differential equations and
fourier analysis
