

CALL FOR PAPERS

ICMSNCT 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSNCT 2021 : International Conference on Mobile Systems, Networks and Cloud Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Systems, Networks and Cloud Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Android, iOS, and Windows Mobile security and privacy
Digital forensics on mobile operating systems, applications and smartphones
Secure mobile application development
Smartphone device/hardware security
Mobile and cloud application security and digital forensics
Mobile and cloud user authentication and authorization
Multi-factor mobile and cloud authentication
Mobile and cloud user privacy

Intrusion detection and recovery on mobile OS, applications, smartphones and cloud
4G and 5G security
Modeling, design and testing secure mobile cloud
Secure algorithms and methodologies for mobile cloud
Secure and efficient private mobile cloud
Secure mobile cloud application design and development
Vulnerability detection and remediation of mobile cloud
Mobile and cloud device and applications management
